

**New Mexico Association of Drug Court Professionals (NMADCP)
Training Conference for Problem-Solving Courts
November 2-3, 2016
Sheraton Uptown Hotel, Albuquerque, NM**

Conference Agenda

Day 1 (Wednesday, November 2, 2016)

7:00 – 8:30 am: Registration and Continental Breakfast

Main Hallway

8:30 – 9:00 am: Welcoming Remarks

Ambassador/Registry/Regal Ballroom

The Honorable Cristina Jaramillo, 2nd Judicial District Court and President of NMADCP

9:00 – 10:30 am: NM Best Practices Assessment Statewide Summary and the New NM Drug Court Standards

Ambassador/Registry/Regal Ballroom

Dr. Juliette Mackin, Co-President NPC Research

Peter Bochert, Statewide Drug Court Coordinator, Administrative Office of the Courts

This plenary presentation will provide an overview of the state's drug court programs implementation of research-based best practices, with suggestions as to how programs could improve their performance. It will also cover the judiciary's newly revised drug court standards, the reasoning behind the changes and the importance of the revisions to statewide drug court operations.

10:30 – 10:45 am: Mid-morning break

10:45 – 12:15 pm: The DWI Offender vs the Drug Offender

Ambassador/Registry/Regal Ballroom

The Honorable Patrick C. Bowler (ret.)

Dr. Ken Robinson, Correctional Counseling Inc.

More and more drug treatment courts are taking habitual DWI offenders into their programs raising questions on what is the proper treatment and supervision for this group of participants; should it be the same as the drug addicted participants? This presentation discusses the practical and theoretical reasons why some drug courts with DWI participants have created separate tracks for the courtroom as well as for treatment.

12:15 – 1:30 pm: Lunch on your own

1:30 – 3:00 pm: Miscellaneous Breakouts

- **Ethics and Confidentiality: Doing the Right Thing**

Ambassador

The Honorable Patrick C. Bowler (ret.)

This presentation is interactive, with exercises giving real life examples of ethical dilemmas presented in drug courts around the country. It begins by outlining the federal laws of confidentiality in drug treatment, and discusses the methods by which drug courts comply with the law. It also discusses the ethical considerations of each role on the team.

Learning Objectives—in this session, participants will:

- Learn how the Federal Confidentiality Regulations are applied in the drug court setting
- Learn the common confidentiality issues faced by treatment providers in the drug court setting
- Learn the rules to apply to participants in drug treatment courts
- Learn 42CFR part 2-Alcohol/Substance abuse treatment confidentiality rule
- Learn HIPAA-new federal rules covering all health related information

- **Trauma Focused Moral Reconciliation Therapy**

Registry

Dr. Ken Robinson, Correctional Counseling Inc.

This session will cover the basics of trauma and the key issues identified by SAMHSA's Trauma-Informed Treatment Protocol. The different types of trauma will be discussed. The differentiation will be made between trauma informed care and trauma focused treatment. The foundation of the MRT model will be discussed and the efficacy of trauma-focused cognitive behavioral treatment will be explained. This session will provide practitioners with the latest research regarding trauma.

- **3-Prong Approach to Incentives: Prong #1**

Regal

Wendy Schiller, National Council Juvenile and Family Court Judges

The First Prong – Implementing the Most Valued Privilege (MVP)

As a training and technical assistance provider working with juvenile drug courts, the National Council of Juvenile and Family Court Judges has observed two ways that juvenile drug court teams respond to drug test results. This session will explore the Most Valued Privilege (MVP) in your juvenile drug court. We will discuss and learn about ways to:

- Focus on the court's response to positive or negative drug tests
- Gain compliance over a single behavior
- Implement the MVP

- **Death and Team Dynamics**

Roxy

David Borunda, Program Director Third Judicial District Court

Rachel Villalobos-Madewell, CEO/Clinical Director of Esperanza Guidance Services

This breakout will discuss how dealing with death impacts all individuals involved in a Drug Court Program. Whether it is dealing with a client overdose,

suicide, homicide, or even a team member's passing and how it affects the clients, families, and team members. We will discuss how to de-brief the team, assure that proper resources are in place for all clients, families, and team members. We will discuss how to identify any potential warning signs so that early intervention can be implemented and different approaches to deal with crisis involving a death within our program.

- **Drug Court 101**

Serenade

Peter Bochert, Statewide Drug Court Coordinator

This breakout will provide newcomers an overview of the drug court model along with a review of the reasoning and research behind its operations.

3:00 – 3:15 pm: Mid-afternoon break

3:15 – 4:45 pm: Miscellaneous Breakouts:

- **Why Don't They Change?!: An Introduction to Motivational Interviewing for Drug Court Professionals**

Ambassador

David Forman

This introduction to Motivational Interviewing will make it possible for attendees:

- To be able to answer the question, "What is Motivational Interviewing?"
- To identify relevant areas of their own work where MI would be useful
- To have an experience of the "Spirit" of MI through direct participation
- To identify some of the core concepts explaining MI's effectiveness
- To have an overview of the four processes of MI
- To have knowledge of next steps for pursuing further MI knowledge and skill

- **Marijuana: Myth and Reality**

Registry

Dr. Ken Robinson, Correctional Counseling Inc.

This session will highlight the science of addiction from both an acute and chronic perspective. How marijuana affects the body and brain will be covered.

The session will provide up-to-date information on research covering prevalence, impairment levels, and treatment of marijuana addiction.

- **3-Prong Approach to Incentives: Prong #2**

Regal

Wendy Schiller, National Council Juvenile and Family Court Judges

The Second Prong – Implementing Youth Contracts

Teams are encouraged to develop a contract system that uses individualized youth contracts to reward and motivate positive behavior change in other areas such as school attendance, family connectedness, and community involvement. This

session will explore implementing youth contracts in your juvenile drug court. We will discuss and learn about ways to:

- Develop step-by-step process for youth to follow
- Get youth working towards “things” they are interested in
- Set goals to help accomplish what is set in a case plan

- **Powerful MBCT Tools**

Roxy

Daniel Blackwood, Director of The Evolution Group Inc.

This presentation will focus on Mindfulness-Based Cognitive Therapy, theory, a compatible workbook, called Integrity Recovery, and a new self-growth and urge surfing app just developed. We will experience MBCT and how to incorporate it into treatment and also into monitoring and supervision within the context of drug court programs.

- **Aftercare**

Serenade

Brian Parkhill, MS, Director Millennium Treatment

Treatment has advanced and evolved considerably over the past 20 years. In this session we will explore whether or not the aftercare component of treatment has kept pace. We will examine current practices and glean the best from each program. We will discuss whether we are assisting clients to move from external to internal control of their recovery or whether we are enabling them to believe the hard work is over and they can slow down in their recovery process. Finally, we will explore what an effective after care component of treatment can be. AND we will have chocolate to refuel us as we work!

Day 2 (Thursday, November 3, 2016)

7:00 – 8:00 am: Registration and Continental Breakfast

Main Hallway

8:00 – 8:15 am: Welcoming Remarks

Ambassador/Registry/Regal Ballroom

The Honorable Charles Daniels, Chief Justice New Mexico Supreme Court

The Honorable Cristina Jaramillo, 2nd Judicial District Court and President of NMADCP

8:15 – 9:00 am: Graduates' Stories

Ambassador/Registry/Regal Ballroom

Several program graduates will share their inspiring stories of life before, during, and after drug court.

9:00 – 10:30 am: Program Certification and Peer Review Process

Ambassador/Registry/Regal Ballroom

Dr. Juliette Mackin, Co-President NPC Research

Peter Bochert, Statewide Drug Court Coordinator, Administrative Office of the Courts

This plenary presentation will explain how the AOC will use the judiciary's newly revised drug court standards as part of a program certification process. We will also describe a related initiative to develop a statewide learning community, wherein trained practitioners will visit other programs and perform a peer review, based on the research-based best practices identified for drug courts.

10:30 – 10:45 am: Mid-morning break

10:45 – 12:15 pm: Moving Beyond Compliance to Lasting Change

Ambassador/Registry/Regal Ballroom

Dr. David Mee-Lee, Chief Editor ASAM Criteria

To achieve the goals of increased public safety, decreased legal recidivism and crime, participants need to be engaged in a self-change, accountable treatment process. In the past, helping people change has too often depended on seeing resistance as negative, client pathology, "breaking through denial" and strategies that have disempowered and disrespected people. Individualized treatment using the concepts and constructs of the American Society of Addiction Medicine's (ASAM) Criteria and motivational interviewing and other evidence-based practices can help engage participants in lasting change.

This presentation will discuss how treatment providers and problem solving courts can work together to move people beyond compliance with mandated treatment to engage participants in responsible, accountable change.

Objectives - Participants will:

1. Identify how to more purposefully join with participants to facilitate action/change.
2. Discuss how to use The ASAM Criteria and Evidence-Based Practices to engage hard-to-reach people as an active participant in an accountable service plan.
3. Apply The ASAM Criteria and stages of change work to increase accountability and lasting change.

12:15 – 1:30 pm: Lunch on your own

1:30 – 3:00 pm: Miscellaneous Breakouts

- **DWI Drug Court Phases Revisited**

Ambassador

Carolyn Hardin, Director NDCI

There are important reasons for the framework that phases provide for a treatment court program. Perhaps most importantly, it gives the participants visible steps to measure success. Treatment courts tend to be long, rigorous programs, lasting one to two years. Giving the program structure gives the participant bite size pieces to tear off and digest. It also allows the team to measure—somewhat objectively—how well the participant is progressing through the program requirements. This session gives an overview of the necessity of distinct phases for a treatment court participant to progress through on their journey towards commencement from treatment court. This presentation will provide the team with an understanding of how to design phases and court requirements.

Learning Objectives-At the end of this session, the participant will be able to:

- Learn the two types of phases
- Learn about the typical phase requirements based on risk and need level
- Review examples of typical phase requirements as a participant progresses through the program

- **How to Deal with Relapse**

Registry

Dr. David Mee-Lee, Chief Editor ASAM Criteria

Relapse, continued use and continued problems is not only common, but can be expected in addiction and mental health treatment. Assessment of relapse potential for preventive actions and assessment of poor outcomes of re-use and addiction and mental health flare-ups is critical. This session will discuss what to do that continues treatment and recovery, not just discharge the participant. It will highlight how to work together – judges, court teams, treatment providers and all stakeholders - to deal with positive drug screens and other poor outcomes. We will discuss what to do in early phases of problem-solving courts versus in later phases and other proximal and distal approaches.

Educational Objectives:

Participants will:

1. Identify key concepts about relapse, continued use and problems.

2. Review the role of incentives and sanctions in poor outcomes that threaten recovery.
3. Discuss ideas on how to improve policies and procedures, phases and programs to promote recovery in court participants.

- **3-Prong Approach to Incentives: Prong #3**

Regal

Wendy Schiller, National Council Juvenile and Family Court Judges

The 3rd Prong creates a strength-based atmosphere for the team. This session will explore program-wide incentives in your juvenile drug court. We will discuss and learn about ways to:

- Motivate family to engage in the program
- Positive peer-to-peer reinforcement
- Upward phase movement

- **The Role and Leadership Responsibilities of the Drug Court Judge**

Roxy

The Honorable Patrick C. Bowler (ret.)

Understanding how the role and leadership responsibilities of the drug court judge affect behavioral change in the drug court participant is essential. This session will explore important aspects of the judge's role, including leadership of the drug court team, leadership in the community and the importance of judicial interaction with the participant. New research and case law makes this training essential for both new and experienced drug court judges.

Learning Objectives-At the end of this session, the participant will be able to

- Understand how the judge's role can affect behavioral change in the participant.
- Discuss the paradigm shift from traditional court to drug court.
- Understand the importance of leadership with the team, the community and the participant.

- **Alternative Treatment Modalities**

Serenade

The Honorable T. David Eisenberg and Dr. Mark Mash

In this workshop, the empirical, theoretical, and anecdotal support for the efficacy of several innovative treatment approaches will be presented, including accu-detox, QEEG brain mapping, neurofeedback, PEMF (pulsed electromagnetic frequency), and Synaptagenx (an over the counter supplement). Dr. Mash will discuss the uses and results of these treatments as well as their limitations. In addition, Dr. Mash and Judge Eisenberg will present innovative aspects of Taos Pueblo's Wellness Court program, including separate tracking of compliance related to participation and sobriety, the use of a dual track sanction schedule, and the role of various forms of sobriety monitoring, including portable alcohol monitoring devices and 80 hour alcohol tests.

3:00 – 3:15 pm: Mid-afternoon break

3:15 – 4:45 pm: Miscellaneous Breakouts

- **Adult Drug Court Phases Revisited**

Ambassador

Carolyn Hardin, Director NDCI

There are important reasons for the framework that phases provide for a treatment court program. Perhaps most importantly, it gives the participants visible steps to measure success. Treatment courts tend to be long, rigorous programs, lasting one to two years. Giving the program structure gives the participant bite size pieces to tear off and digest. It also allows the team to measure—somewhat objectively—how well the participant is progressing through the program requirements. This session gives an overview of the necessity of distinct phases for a treatment court participant to progress through on their journey towards commencement from treatment court. This presentation will provide the team with an understanding of how to design phases and court requirements.

Learning Objectives-At the end of this session, the participant will be able to:

- Learn the two types of phases
- Learn about the typical phase requirements based on risk and need level
- Review examples of typical phase requirements as a participant progress through the program

- **Challenging Cases and Situations**

Registry

Dr. David Mee-Lee, Chief Editor ASAM Criteria

Because participants in problem-solving courts are often more focused on “doing time” than on “doing treatment” and real change, it is a challenge for treatment providers and court teams to work together to get the outcomes we all want. Communication and conflict can arise as each part of the overall team advocates for public safety, or treatment strategies or accountability or compliance.

This presentation will encourage treatment providers and problem solving court teams to bring their challenging cases for open review and discussion. Common challenging situations can also be discussed even if there is not a particular participant’s case to bring to the session.

Objectives - Participants will:

1. Identify common challenging cases and situations that arise in problem-solving courts.
2. Discuss how to work together to resolve communication and conflicts over the best plan to follow in challenging cases.

3. Review the roles of the court team and the treatment provider in working with challenging participants and situations.
- **Position-Specific Workshops:** These three workshops will allow judges, attorneys, probation/surveillance and law enforcement officers attending the conference to review and discuss highlights of the two day conference through discussions facilitated by NMADCP Board Members.
 - **Attorneys** (*Matthew Cockman and Dave Cowen*)
Regal
 - **Judges** (*The Honorable Cristina Jaramillo and the Honorable Matthew S. Page*)
